## **Tanknology accomplishes an industry first, Performs its *One-Millionth* tank test**

**Austin, TX** – Tanknology Inc. announced today that the company recently tested its one-millionth underground storage tank, an accomplishment that is unmatched in the world-wide petroleum industry.

Tanknology is the largest provider in the world of environmental compliance testing solutions for the petroleum industry. In the United States, the company dominates the UST testing and services market, with 11 regional offices covering every corner of

the country, servicing customers from the largest major oil companies to regional independents to single-station owners.

“We are very excited about reaching this milestone of our one-millionth tank test,” said Allen Porter, President and CEO of Tanknology. “It’s an unprecedented accomplishment in our industry, which we’re very proud of.”

## **Tanknology – One Millionth Test**

### **Page 2**

Tanknology's one-millionth test occurred at a new Cumberland Farms convenience store in East Brookfield, Mass. on Sept. 28, 2006.

“It is fitting that a milestone of this magnitude occurred for us at a Cumberland Farms site, Porter said. “Tanknology has a long-standing partnership with Cumberland Farms and we have tremendous respect for their approach to environmental protection. This is a company that goes well beyond what is merely required for compliance with local, state and federal regulations. Protecting the environment is a very serious commitment at Cumberland Farms and we are proud to be their environmental compliance partner.”

Based in Austin, Texas, Tanknology operates across America and around the world, providing UST environmental compliance testing and related services at more than 37,000 sites per year, for more than 3,000 customers. Internationally, Tanknology licensees span more than 20 countries, providing services to the largest petroleum retailers in the world.
