## **Tanknology Announces Three New Master Alliance Partners**

**Austin, TX – Tanknology Inc.**, the world's largest Underground Storage Tank (UST) environmental compliance services company, announced today that three new companies have joined the ranks of Tanknology's Master Alliance Partner program, the highest level in its reseller partner network. The new partners include **Southern Pump & Tank Co. (SPATCO)**, **Double Check Co. Inc.**, and **The Hill Co.**

**Southern Pump & Tank (SPATCO)**, based in Charlotte, NC, provides a complete line of equipment and services for the petroleum and industrial fuels marketplace in the Southeastern US. Founded in 1935, SPATCO operates eight branch offices covering the entire southeast, from Virginia south to Florida and west to Tennessee.

**Double Check Co., Inc.**, specializes in petroleum sales, service and training, covering the states of Missouri, Kansas and Oklahoma. Double Check is based in Kansas City, MO and operates six offices across the three states. ([www.dblchk.com](http://www.dblchk.com))

**The Hill Company**, a 60-year old specialist in petroleum equipment installation based in Fort Worth, TX. The Hill Co. specializes in total system design, engineering, installation and repair. ([www.thehillcompany.com](http://www.thehillcompany.com))

**Richard Schnabel**, Tanknology's Executive Vice President of Sales, said the company is very happy to have three such distinguished companies joining its Master Alliance Partner (MAP) program.

“SPATCO, Double Check and Hill are three highly regarded petroleum service companies in their respective regions,” Schnabel said. “We are honored to have them as part of our nationwide team of Master Alliance Partners.”

### **About Tanknology**

Based in Austin, Texas, Tanknology operates across America and around the world, providing UST environmental compliance testing and related services at more than 50,000 sites per year, for more than 3,000 customers. Internationally, Tanknology licensees span more than 25 countries, providing services to the largest petroleum operators in the world.
