Tanknology names five new key executives

Austin, TX – Tanknology Inc., the world's largest Underground Storage Tank (UST) environmental compliance services company, today announced the promotions of five executives into key regional and sales management positions.

Kevin Callaway has been named **Regional Manager** of the company's Gulf Coast region, which is based in Austin, TX. Callaway brings six years experience as an Operations Manager in Tanknology's Ohio Valley office. In his new role, Callaway will oversee all operations of the Gulf Coast region, which comprises Texas, Oklahoma, Arkansas and Louisiana.

Also promoted to **Regional Manager** for the company's Southeast Division is **Eddie Campbell**. A five-year Tanknology veteran, Campbell was previously an Operations Manager and QC Manager in the Eastern Division. In his new assignment, Campbell directs operations in Georgia, Alabama, Mississippi, North and South Carolina and Tennessee.

Three divisional sales managers have also been named:

Ron Raleigh has joined Tanknology as **Eastern Division Sales Manager**. Most recently in a sales capacity for a northeast environmental services company, Raleigh will be based in Tanknology's Cherry Hills, NJ office.

Blaine Garwood has become Tanknology's **Northern Division Sales Manager**, based in Elgin, IL. Garwood was most recently an Environmental Compliance Director for a regional oil company and has an extensive professional and educational background in the company's compliance services industry.

Kevin O'Hearn has been named **Gulf Coast Sales Manager**. Based in Austin, O'Hearn brings more than 20 years of experience in the compliance testing industry, beginning his career as one of Tanknology's first field technicians. He has held additional positions in operations, technical training and sales development.

Based in Austin, Texas, Tanknology operates across America and around the world, providing UST environmental compliance testing and related services at more than 50,000 sites per year, for more than 3,000 customers. Internationally, Tanknology licensees span more than 25 countries, providing services to the largest petroleum retailers in the world.
