

Press Release

Tanknology names Jason Bloch VP of Inspection Services

Austin, TX, June 13, 2018 — Tanknology Inc. announced today that Jason Bloch has been promoted to Vice President of the Inspection Services Division. In this capacity, Bloch will be responsible for the operations of Tanknology's Periodic Visual Inspection, Aboveground Storage Tank Inspection, and Compliance Management Groups.

For the last five years, Bloch has managed Tanknology's periodic visual inspection group, and has helped grow the start-up service from a single client to its current state, which includes 22 nation-wide inspectors serving over 2,000 locations monthly. A ten-year veteran of the industry, Bloch is a 2002 graduate of The Ohio State University.

Tanknology COO Brian Derge said Bloch's promotion comes at the perfect time. "We have grown the inspection services to the point where we need to build out our operations team," said Derge. "With new clients onboarding in preparation for the October 2018 deadline, this move will allow us to be optimally positioned to service the market."

"I am extremely pleased to have Jason in this newly created role," Derge continued. "He is a very talented and dedicated individual, whom I know will maintain the same drive and determination as he tackles this new opportunity."

Based in the company's Austin, Texas headquarters, Bloch can be reached at (800) 964-0150 or via email at jbloch@tanknology.com.
