**Tanknology names William Logue
As Regional Vice President of Northeastern US**

Austin, TX – Tanknology Inc. announced today that William (Bill) Logue has been named Regional Vice President of the company’s Northeastern United States region.

Logue will oversee operations functions for the company in a region that covers the Eastern Seaboard from Maine to Virginia.

A seven-year veteran of Tanknology, Bill Logue began his career as a Field Service Technician, then serving as the Cathodic Protection/Specialty Services Operations Manager. For the last five years, he has served as the Northeast Operations Manager covering New York to Maine. He holds a Bachelor’s degree in Finance from Ramapo College of New Jersey.

“Bill has served in the Northeast Region running operations for several years now,” said Allen Porter, Tanknology’s President and Chief Executive Officer. “This progression to Vice President is well earned. He is very strong in both operations and customer service, having worked closely with both our customers and employees as Operations Manager in the region.”

“Bill has also been a successful technician in the field and has a strong command of the regulations, both nationally and regionally,” Porter said. “I am confident his breadth of

experience and proven skills as a leader will do a great job for our customers in this important region for Tanknology.”

Bill Logue is based in the company’s Mt. Laurel, NJ office. He can be reached there at **(800)-666-1215** or via email at **wlogue@tanknology.com**.

About Tanknology:

Based in Austin, Texas, Tanknology operates across America and around the world, providing environmental compliance testing and inspection services at more than 50,000 petroleum fueling and storage facilities per year, offering more than 20 compliance-related service offerings.
