

Press Release

Stewart Named International Manager

Austin, TX — Tanknology Inc., the world's largest provider of environmental compliance testing and inspection services, announced today that Megan Stewart has been named as International Manager for the Americas, Australia and Africa. In this capacity, Stewart will be responsible for the day-to-day management of Tanknology's international activities, including ongoing technical support for the company's 21 international licensees.

For the last three years, Stewart has served as the International Coordinator for Tanknology. Stewart holds degrees in International Environmental Studies and Spanish from Trinity University in San Antonio, Texas.

Tanknology CEO Allen Porter said Stewart's knowledge of the international industry landscape, Spanish fluency and customer-centric attitude make her the perfect candidate to continue to expand Tanknology's international efforts.

"As we continue to grow our International Division and increase the number of licensees, we are extremely pleased to have Megan as part of our management team," said Porter. "Since coming to Tanknology, she has proven to be smart and passionate and has been integral to the recent success of the International Division."

Based in the company's Austin, Texas headquarters, Stewart can be reached at (800) 964-0150 or via email at mstewart@tanknology.com.

About Tanknology

Based in Austin, Texas, Tanknology operates across America and around the world, providing environmental compliance testing and inspection services at more than 50,000 petroleum fueling and storage facilities per year, offering more than 20 compliance-related service offerings. Internationally, Tanknology licensees span more than 30 countries, providing services to the largest petroleum operators in the world.
