

Press Release

Tanknology to Present at NISTM Orlando

Austin, TX - Brian Derge, Chief Operating Officer for Tanknology, will present on SP-001 Inspection Case Studies at the 21th Annual International Aboveground Storage Tank Conference and Trade Show in Orlando. Derge will speak on Wednesday, April 3 at 3:45 PM.

Founded in 1989, The National Institute for Storage Tank Management (NISTM) is an international organization that provides educational opportunities, resources and training seminars about the operation, regulation, and management of Underground and Aboveground storage tank systems.

A 20-year veteran of the industry, Derge has been the Chief Operating Officer of Tanknology Inc. since 2016. He is current a member of the PEI RP1200 Committee for the Testing and Verification of Spill, Overfill, Leak Detection and Secondary Containment Equipment at UST Facilities and past member of the PEI Safety Committee. Derge is also member of numerous state level committees on the environment. He is a 1995 graduate of the College of William & Mary.

Tanknology, the world's largest provider of environmental compliance testing and inspection services, will be exhibiting in booth 500 at the NISTM Trade Show. For more information on Tanknology, visit tanknology.com, or to find out more about the Conference and Trade Show, visit nistm.org. Derge can be reached at (800) 964-1250 or bderge@tanknology.com.

About Tanknology

Tanknology Inc. the world's largest provider of environmental compliance testing and inspection services, provides environmental compliance testing and inspection services at more than 50,000 petroleum fueling and storage facilities per year. Tanknology offers more than 30 compliance-related service offerings and holds 22 patents for leak detection and tank monitoring technology. Internationally, Tanknology licensees span more than 20 countries, providing services to the largest petroleum operators in the world.
